3rd European Well Abandonment Seminar

Tuesday 29th March 2011, Aberdeen

Aberdeen Exhibition & Conference Centre

Well abandonment can no longer be ignored in the North Sea. This seminar is essential for anyone whose future depends on the oil and gas industry in the long term.

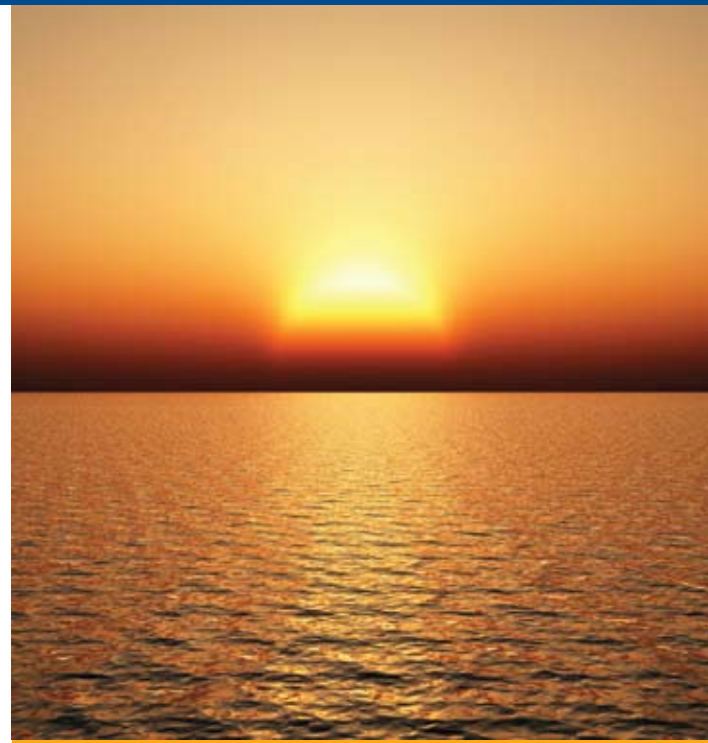

Well abandonment involves new technologies and costs which must be planned for. It also offers great commercial opportunities to those with relevant skills and knowledge.

This seminar offers an excellent opportunity to learn from expert practitioners, hear about best practices and see the services and tools used.

Topics will encompass case studies and vital industry updates on:

- Understanding and planning for abandonment
- Well suspension and abandonment techniques
- Assessment and assurance of abandonment barrier integrity
- Benchmarking and sharing learning
- Industry focus

All speakers are respected industry practitioners.

2011

COST

Members (SPE/EI) £275 plus VAT

Non-members £325 plus VAT

Student/academic £50 plus VAT

Early Bird discount of £50 for online bookings made before 1st March 2011.

Group booking discount:

pay for four places and get a fifth free – Contact the organisers, or book online.

Programme for Tuesday 29 March 2011

| | |
|--------------|---|
| 08:00 | Registration and refreshments |
| 08:45 | Welcome and introduction Keynote address <i>Andrew Carr, Head of Field Development and Production, NNS and WoS, DECC</i> |
| 09:10 | Oil and Gas UK Workgroup 5 : Updates on guidelines <i>Jules Schoenmakers, Shell/Oil and Gas UK</i> |
| 09:35 | Plug and abandonment forum established in Norway to meet new challenges <i>Martin Straume, BP, Member of the P&A Forum</i> |
| 10:00 | Refreshments - viewing posters and exhibition |
| 10:30 | Well decommissioning cost estimation <i>Steve Kirby, Oil and Gas UK</i> |
| 10:55 | Why does P&A cost so much in the North Sea? <i>Tom Leeson, Halliburton</i> |
| 11:20 | What governs the decision to abandon versus suspension? <i>Martin Mosley, Talisman Energy</i> |
| 11:45 | Lunch - viewing posters and exhibition |
| 13:00 | Inde well abandonment campaign 2007/2010 <i>Cees van Zwol, Shell</i> |
| 13:25 | Subsea well abandonment using light well intervention <i>Silje Slettebo, Statoil</i> |
| 13:50 | Pushing for performance during difficult well abandonment <i>Douglas Loaiza, Shell</i> |
| 14:15 | Logging for well abandonments. It is good business <i>Eduardo Delgado, Shell</i> |
| 14:40 | Refreshments - viewing posters and exhibition |
| 15:10 | Application of a novel and cost effective technique for plug and abandonment of difficult wells in the Norwegian North Sea <i>Maqsad Alam, WellCem</i> |
| 15:35 | The contribution of wireline logs to optimizing plug and abandonment operations <i>Colin Hardisty, Pablo Estrada, Ricardo Formoso and Mark Combe, Schlumberger</i> |
| 16:00 | Coiled tubing abrasive jetting <i>Ron Schreuder, Schlumberger</i> |
| 16:25 | Chairman's Round up |
| 16:50 | Networking reception |
| | Technical Posters Reducing rig time during P&A campaign in Norway with introduction of new technologies for section milling operations <i>Garry Garfield, Baker Hughes</i> The design of a subsea tubing unit for cost effective subsea well abandonment from a light well intervention vessel <i>Tony Bamford, Geoprober</i> Efficient abandonment of platform wells with limited resources <i>Lee Anderson, Baker Hughes</i> |
