

SPE London Section Continuing Education Seminar

RESERVOIR CHARACTERISATION: *LISTENING TO MOTHER NATURE*

Thursday 11th March, 9.30am to 5.30pm
Geological Society, Piccadilly, London W1

All models are wrong but some are useful. This seminar focuses on using the tools and technology that the industry has developed to build the most representative reservoir & simulation models. The day takes attendees through:

- Managing uncertainty in modelling & volumetric evaluation
- 4D visualisation
- Petrophysical input & SCAL
- Fault rock characterisation
- Reservoir simulation
- Case studies

This seminar is a must for anyone involved with geological modelling, reservoir monitoring, management or simulation, managers and technical assistants.

Tickets: Cost £200 members SPE/PESGB/EI inc VAT

Booking: Secure advance booking at www.katemcmillan.co.uk or contact Kate McMillan on telephone 07736 070 066 or email Katespe@aol.com – Early booking is strongly advised
